PROJECT ● Active

Building Safe and Inclusive Schools: Combating Bullying and Cyberbullying Together

This eTwinning project aims to create a safe and inclusive school environment by addressing the issues of bullying and cyberbullying while promoting inclusion among students. The project will involve various educational activities designed to raise awareness about the negative impacts of bullying, both in person and online, and will provide students with the tools they need to recognize, prevent, and respond to these behaviors. The project will foster empathy, respect, and inclusion among students, while also involving teachers and parents in creating a supportive and positive school climate. The activities will be divided into monthly themes, focusing on awareness, skill development, online safety, and community involvement. The project will also encourage cross-cultural collaboration, where students from different countries will work together to share experiences, exchange ideas, and develop strategies for bullying prevention. In the process, students will develop a better understanding of diversity and the importance of inclusion, both in the classroom and online.

Building Safe and Inclusive Schools: Combating Bullying and Cyberbullying Together

Description:

This eTwinning project aims to create a safe and inclusive school environment by addressing the issues of bullying and cyberbullying while promoting inclusion among students. The project will involve various educational activities designed to raise awareness about the negative impacts of bullying, both in person and online, and will provide students with the tools they need to recognize, prevent, and respond to these behaviors.

The project will foster empathy, respect, and inclusion among students, while also involving teachers and parents in creating a supportive and positive school climate. The activities will be divided into monthly themes, focusing on awareness, skill development, online safety, and community involvement.

The project will also encourage cross-cultural collaboration, where students from different countries will work together to share experiences, exchange ideas, and develop strategies for bullying prevention. In the process, students will develop a better understanding of diversity and the importance of inclusion, both in the classroom and online.

Main Outcomes:

- A school environment where students feel safe and included.
- Increased awareness and understanding of bullying and cyberbullying.
- Practical strategies for dealing with bullying and promoting inclusion.

Monthly Activities Program:

December-January: Introduction and Awareness

- **Activity 1:** Introductory presentation on bullying and cyberbullying. Defining the terms and explaining their impact on victims.
- **Activity 2:** Group discussions: Students share experiences and engage in open discussions about bullying and its effects.
- **Activity 3:** Creating posters and informative materials about bullying, cyberbullying, and inclusion, to be displayed around the school.
